Metal treatment

and Drop Forging *(Established 1935)*

Index to volume 29

January to December 1962

ARTICLES

A

Aluminium coating of steel 117
Ambrose Shardlow & Co. Ltd., Sheffield 449
'Ardeforming' 243
Austin Motor Co. Ltd., Longbridge 402

B

Beryllium and magnesium extraction, a century of 233
Boron on the structural stability of weldable, creep-resistant, 16/13 CrNiW steels, effect of .. 311
British Non-Ferrous Metals Research Association .. 291
B. & S. Massey, 1861-1961 37
B. & S. Massey Ltd., Manchester 446

C

Cast die inserts 451
Coatings for heat treatment 206
Colvilles' strip-mill project 55
Comparison of hot and cold forging of steel .. 13
Consumable-electrode vacuum-melting steels .. 61
Corrugating steel forgings 386

D

Developments in electronic and automatic controls on machinery and plant used in the drop forging industry 465
Die forging, the influence of the dimensions of the flash gap on the compression stresses in the gap and die cavity and the filling of the die in 373
Die sinking, the coming revolution in 515
Drop hammer slides, a new treatment for improving the lives of 381

E

Effect of boron on the structural stability of weldable, creep-resistant, 16/13 CrNiW steels .. 311
Effect of small beryllium contents on the recrystallization of high - purity aluminium (Raffinal) 258
Effect of strain rate on the tensile stress-strain characteristics of metals 25
Electrical development test and display centre .. 203
Electro-hydraulic forming equipment 109
Electron-beam melting of metals .. 141, 191, 237
Electron-probe microanalysis 149
English Steel Forge & Engineering Corporation Ltd., Sheffield 410
Explosive hardening of 12% austenitic manganese steel 286

F

Ferro-alloy research in India 164
Firth Brown Ltd., Sheffield 406
Firth-Derihon Stampings Ltd., Sheffield 408
Ford Motor Co. Ltd., Dagenham 352
Forging of steel, comparison of hot and cold .. 13
Forgings & Presswork Ltd., Birmingham 404
Forgings requiring rear gauging 59
Fractographic study of some temper brittle steels .. 301
Fulmer Research Institute 327
Furnace design 22

Furnace equipment for Spencer Works strip mill.. 461
Furnaces for automobile component production, new 96

G

Garringtons Ltd., Bromsgrove 358
Gas in industry 283

H

Hardening curves during cold mechanical working 491
Heat-treating aircraft engine components 58
Heat Treating, 9th International Discussion on .. 501
Heat-treating stainless steel for jet airliner.. .. 245
Heat-treatment plant at Humber Ltd., modern .. 246
High Duty Alloys Ltd., Redditch 442
High-energy-rate forging machine 307
High-temperature materials in the Soviet Union .. 323

I

I.C.I. heat-treatment centre at Witton, new .. 513
Induction melting at BISRA Laboratories, Sheffield 526
Influence of the dimensions of the flash gap on the compression stresses in the gap and the die cavity and the filling of the die in die forging .. 373

J

Jaguar Cars Ltd., Coventry 346

L

Laird & Sons Ltd., Irvine, Ayrshire 444
Lithium 2

M

Machined aluminium structure for British jet airliner 88
Massey-Ferguson Ltd., Coventry 355
Mechanical tests, the usefulness of 413
Metallurgical aspects of the weldability of mild structural steels 130, 182, 214, 267
Microstructure of scale on iron and steel 89
Molten salt baths, surface treatment in 5, 66

N

Niobium, oxidation characteristics of 496
Noble metal composite materials 119
Non-destructive testing laboratory for steel castings 204

O

Oil-fired furnace for large castings 528
Omes Ltd., Barnes, London.. 349

P

Phase-equilibrium studies 31
Phosphate coatings for cold forging.. 104
Portable Brinell hardness tester, a 73
Pourbaix diagrams 45
Precipitation treatment of forgings 292
Precision forging, modern equipment for 138

Q

Quench ageing of iron-silicon-nitrogen alloys .. 175

R

Recrystallization of high-purity aluminium, effect of small beryllium contents on the (Raffinal) .. 258
Relationship of testing to design 106
Russian forging journal 44, 372, 525

S

Scale on iron and steel, microstructure of 89
Sintering self-lubricating bronze bearings 72
Skew-rolling 17
Smithson Tennant, bicentenary of the discovery of iridium and osmium 29
Smith's Stamping Works (Coventry) Ltd. 344
Spark-machining electrode material 288
Spencer Works strip mill, furnace equipment for .. 461
Stress-corrosion cracking of metals 300
Stresses in containers.. .. .. .. 97, 157
Surface treatments in molten salt baths 5, 66

U

Ultrasonic deburrer 524
Unwanted variation in steel composition 223
Usefulness of mechanical tests, the 413

V

Vacuum and salt-bath brazing 199
Vacuum-brazing assemblies for 'Gnome' engine 75
Vacuum heat-treatment furnace for 3½-ton load .. 336
Vacuum melting at Jessop-Saville 153
Value of accuracy in drop forging with particular reference to the call for closer tolerances, the .. 421

W

Walking-beam billet heater 121
Weldability of mild structural steels, metallurgical aspects of the 130, 182, 214, 267
Wilkins & Mitchell Ltd., Darlaston.. 498

X

X-ray microanalyser, development of an 275

BOOKS

Aluminium bright trim 294
BISRA conference on heat treatment 76
Cold forging of steel 21
Common Market, the 76
Computers and production control 76
Copper-bearing steels for structural purposes .. 76
International journal of production research, the .. 76
Metallic fatigue 21
Metallurgy of welding, the 530
Microscopic identification of inclusions in steel .. 338

Progress in nuclear energy. Series V. Metallurgy and fuels 293
Protection of structural steel against fire 76
Rare earth research 530
Revised British Standard for notched bar tests. Part 3 338
Safety and health in industry 76
Welding aluminium 294

FILMS

Aluminium pipework 248
Flourish of tubes, a 248
Fluid power circuits 532
Optical gratings and machine tools 532
Welding Wiggin high-nickel alloys 338

LEADERS

Amateur *v.* professional 129
Drop forging research 213
Electron probe, the 87
High-energy-rate forming 489
Hydrogen in steel 257
Innovators in industry 299
International drop forging convention 391
Japan's steel industry 43
Metric system 173
Second industrial revolution, the 441
Steel prospects, 1962 1
Welcome to drop forgers, a 343

NADFS

Annual banquet, 1962 490
4th International Convention of Drop Forgers and Stampers 174
4th International Convention of Drop Forgers and Stampers—presidential reports .. 361, 399
4th International Convention of Drop Forgers and Stampers—reception at the hall of the Skinners Company, London 392

NEW PLANT

Batch-type rotary-drum furnace 128
Counter-blow forging hammer 86
Gamma radiography 212
Gas-fired horizontal batch furnaces 82
Hafnium crystal bar 86
H.F. induction-heating equipment 84
High-vacuum furnace 212
Investment material for heat treatment of beryllium copper 86
Ipsen ceramic brick 212
Oscilloscope camera 212, 256
Pneumatic vice 86
Power press transmission 84
Roots mechanical booster pump 256
Rubber press technique, new hydraulic 214
Vacuum brazing furnace 128
Vacuum tempering furnace 82
Vacuum units with forced convection gas cooling .. 128
Versatile instrument for precision measurement .. 256
Vertical scale thermometers 128
Welded aluminium tube 84

PEOPLE

Anderson, G. A. 390
Bagnall, Frank T. 172
Bryce, Robert Alexander 254
Burke, Harold 340
Clayton-Cave, J. 340
Cohen, Dr. Morris 172
Dovey, D. M. 295
Goodeve, Sir Charles 390
Jones, Sir Walter Benton 38
Klemantaski, Dr. S. 340
